DNMEG_V5T
Errata Notification

Product Name: DNMEG_V5T
Product Number: 501-0152-0000
Last Updated: 2 April 2009
Author: Roy Rodgers

Although the Dini Group has made every effort to ensure the highest quality, the following hardware errata have been observed:

Products Affected

- DNMEG_V5T Rev 1
- DNMEG_V5T Rev 2

Hardware Errata Details

Daughter Card Header signals, “DC_B2p22” and “DC_B2n22” are connected to the incorrect polarity on the FPGA (U1), see signals highlighted below:

BANK 18 (VCCO_DC_B2)
